PROFESSIONAL SUMMARY

Second-year student pursuing Diploma in Business & Financial Technology (GPA:4.0/4.0), aspiring to become a data Analyst and developer. Combines technical proficiency in SQL, Python, and JavaScript with a passion for building intuitive web applications. Adept at creating responsive interfaces and managing secure data-driven CRUD operations. Dedicated to translating complex data into actionable digital solutions that solve real-world problems and make people's lives easier.

PROJECT EXPERIENCE

AI-Powered Insurance Navigator, "PRUNavigator" | PolyFintech100 API Hackathon

June 2026 – July 2026

- **Team Lead -** led a 6-member team through Agile sprints to deliver a full-stack insurance platform from concept to demo.
- **Architecture -** built an AI-driven Next.js dashboard delivering real-time insurance insights and personalized coverage scoring.
- **Backend -** implemented secure SQLAlchemy schemas with strict relational integrity to manage policy and customer data.

Market Strategy & Data Analytics | AI & Data Analytics Group Project

October 2025 – February 2026

- **Dashboarding -** developed a Market Attractiveness Index in Power BI, integrating global datasets to rank 13 countries by weighted revenue potential and acquisition cost
- **Analysis -** engineered DAX measures using RANKX to run multi-variable trade-off analysis, identifying the optimal market entry sequence.
- **Strategy -** authored a two-phase roadmap balancing near-term revenue in established markets with long-term entry into high-competition, high-cost regions

Intergenerational Web Platform, "InterGen" | Web Development Project

October 2025 - February 2026

- **Team Lead -** led a 5-member team to build a full-stack application addressing generational gaps in Singapore
- **Feature Development -** architected a Profile Management system with complete CRUD operations and age-appropriate UI/UX
- **Database Design -** designed a SQLAlchemy database schema to support efficient user and friend management.

SKILLS

Technical

- Programming Languages: Python, JavaScript (ES6), HTML5, CSS3, SQL

- Frameworks & Libraries: Flask, Jinja2, Bootstrap
- Databases: SQLite, MySQL, MongoDB
- Development Tools: Git, GitHub, VS Code
- Methodologies: Agile Development, Design Thinking, Object-Oriented Programming (OOP)

Soft

- Collaborative Teamwork
- Communications
- Strategic Problem-Solving
- Adaptability

EDUCATION

Nanyang Polytechnic
Diploma in Business & Financial Technology
GPA: 4.0 / 4.0
Director's List: Y1S1, Y1S2
Expected Graduation: April 2028

Sembawang Secondary School
O Levels
Cohort Valedictorian
Graduation: November 2024

LEADERSHIP

NYP Founder's Club - Sub-Committee | Nanyang Polytechnic
Marketing | 2026-Present

- Storyboarding, scene-by-scene instructions, and help out with filming the content that is going to be posted on social media like Instagram and TikTok.

Student Council Executive Committee (EXCO) | Sembawang Secondary School
Deputy Head of Compliance | 2023-2024

- Managed student discipline and compliance standards, coordinating team responsibilities and improving duty attendance rates through accountability measures.

CERTIFICATIONS

- User Experience Design Fundamentals - IBM, 2025
- Web Development Fundamentals - IBM, 2025
- Certified Entry-Level Python Programmer - Python Institute, 2025
- AI Fluency: Framework & Foundations - Anthropic, 2025
- Blockchain Basics - Cyfrin Updraft, 2026
- Certified Ethereum Learner - Hackquest.io, 2026
- AI-Powered Performance Ads Certification - Google, 2026
